

The major development in MEPS & energy Label in China

Cheng Jianhong

China National Institute of
Standardization

2009.10.7 Taipei

China's EE standards, Labels

1. MEPS

- 35 MEPS promulgated, involving 5 product categories

- -- Household appliances, 10+1
-- □□□□□□10+1□
- -- Lighting equipment, 8
-- □□□□□□8□
- -- Commercial equipment, 4+2
-- □□□□□□4+2□
- -- Industrial equipment, 6
-- □□□□□□6□
- -- Vehicles, 2
-- □□□□□□2□
- -- Office equipment, 2
-- □□□□□□2□

MEPS under development

□□□□□□□□□□

- Household appliances: microwave ovens, set top boxes etc;
□□□□□□□□□□□□□□□□□□
- Office equipment: computers, print machines, etc;
□□□□□□□□□□□□□□□□□□
- Commercial equipment, including refrigerated display cabinets, heat-pump waterheater;
□□□□□□□□□□□□□□□□□□
- Industrial equipment: boilers, electric power transformers etc;
□□□□□□□□□□□□□□□□□□

3. Energy label in China

implementation

□□□□	
□□□□□ Ref	□□□□□□□□□□ motor
□□□□ RAC	□□□□□□□ ballast
□□□□□ Washer	□□□□ sodium lighting
□□□□□ Unitary AC	□□□□□□□□□□ □□□□□□□□□□ Gas Water heater
□□□□ Chiller	

Energy labeling for buildings

- Org: MOHURD
- New building

2 Policies and enforcement

- China Government Procurement(Mandatory)
- Tax reduction for high-efficiency products
- Consumer subsidy for high-efficiency products
 - appliance price reduce by 13% in countryside (TV, REF, Mobile phone, Washer, RAC, heater, motorcycle,computer,etc)
 - Subsidy for high-energy efficient product (RAC)
- Subsidy for renewable products

3 Work in next step

- Standard for more appliance, equipments
- Capacity building & market transform promoting
 - R-R testing(CNIS, IEEJ, CLASP,EF,LBNL)
 - Market checking(CNIS, EF)
 - Metering for appliance,and TOP RUNNER program (CNIS, IEEJ,EF,CLASP)
- White-paper for appliance & equipment in China

- 
- Standards for renewable energy
 - Standards in industry area
 - audit system(method to evaluate factory/cities/building)
 - economy operation standards
 - energy management standards
