

## AAPPENDIX B : FORMOSA TAFFETA CO., LTD. (FTC)

FORMOSA TAFFETA CO., LTD. (FTC) was established in April 1973. At that time in Taiwan, the textile industry and export trading business was flourishing. The Formosa Chemical and Fiber Co., a member of the Formosa Plastic Group, in conjunction with a selected number of private investors, cooperated together to establish FTC. FTC utilized the most modern machinery and became a vital link in the middle-stream textile industry with its weaving, dyeing, printing and finishing process and gained the reputation of being a "faithful supplier". FTC has had a business philosophy of harmony, creativity, service and contribution, and providing various quality products to down-stream processing industries. The company has sought to upgrade the quality of life both for its customers and its product users.

FTC is one of the top three manufacturers worldwide of filament woven fabric with its specialized integrated process. FTC produces type cord, chafer, and conveyor ducks. Its capacity is 2,200 tons per month and it is a renowned manufacturer in Asia. The main processes are: twisting, weaving, dipping and packing. It uses the latest machinery and experiment equipment from Germany, France, Switzerland and Japan to strictly ensure its product quality. It is popular in the Asian and Australian markets and has ISO 9002 Certificate from famous institutes in the U.K., Germany, U.S.A., The Netherlands, Australia and New Zealand. This product is very much trusted by its customers. For furnishing textiles include such thing as curtains, curtain lining, shower curtains, sheets, seat covers, table cloths, and base fabric for towels. These textiles utilize cotton, polyamide, and polyester blends or interweave. They are characterized by their light resistant, down proof, water proof, water repellent, stain release, mold resistant, deodorizing, bacteria resistance and flame retardant qualities. Style and appearance can be altered to accommodate popular fashion trends by adding two-tone, mélange, dobby, printing, and finishing. It gives you the ability to provide a more aesthetic and pleasing feeling to your home environment.

FTC attaches great importance to four conditions: quality and creativity, strict and careful inspection of products, strategically alignments with world-famous companies, and the annual attendance at prestigious trade fairs. This allows FTC to cooperate, develop and grow with its customers and gain a high

reputation in the textile industry. By choosing FTC products, customers symbolize the importance they place on quality and the readiness to win their buyers' trust.
